

# CAPM4Students Program

Enabling the next generation of Project Managers to Thrive! 

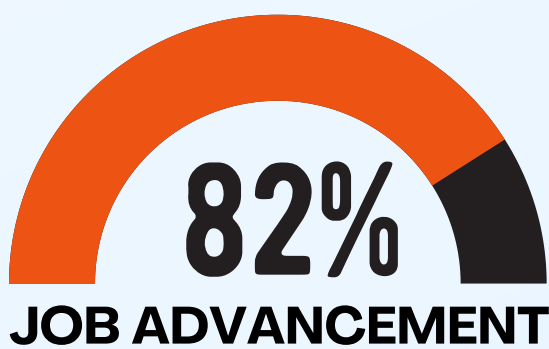

## Who are we?

The Project Management Institute Education Foundation (PMIEF) is the charitable arm of PMI. We believe that empowering people through Project Management is part of our Social Good mission.

At PMI Netherlands, our Academic Outreach and Education Foundation team works with Academic and Business to inspire the workforce of the future to learn Project Management Skills.

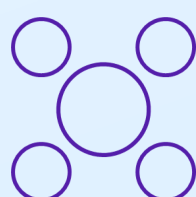

## Project Certification Benefits

## What is the CAPM4Students Program?

The CAPM (the Certified Associate Project Management) Certificate is recognized by businesses around the world as the entry level certification for new Project Managers. As part of the program, we provide students with everything they need to pass the CAPM exam.

We also provide 1 free year as a member of the PMI community and all of the benefits associated access. This includes programs to introduce students to our Netherlands Chapter.

## What are the benefits?

### Students

- You receive added value skills and build knowledge critical to hiring businesses.
- Once you have passed the exam, the certification is an asset that will distinguish you in the job market.
- The certification will enhance your credibility and effectiveness working on projects.
- You will become part of the PMI network enabling you to establish a mentoring/ coaching relationship with fellow PMs.

### Universities

- Universities can benefit to provide extra education options to students.
- Universities can promote the benefits of project management.
- Universities become encouraging entry points to the workforce.
- Universities increase their credibility and effectiveness in working with projects.

## How does the Program Work?

We collaborate with universities to select and vet students on their achievements and interest in the project management profession.

01

We enroll the students in the CAPM4Students program and support the students through the certification process.

02

We continue to support students in their skills building through the PMI Community.

03

Students give back by sharing their experience to the community and fellow students.

04
