

Job role: Project Management Officer (PMO)

Previous experience: 4-5years

Location: Soest, Utrecht

Description:

As a Project Management Officer (PMO) you are responsible for leading or organizing the project management efforts at our clients. You provide the frameworks, processes, guidance, training and support for project teams and ensure that the preconditions are set up so that projects can be delivered on time, within scope and within budget. You work closely with project managers, stakeholders and team members to ensure that all project objectives are met.
