

Job role: Project Management Consultant

Previous experience: 5+ years

Location: North-Holland

Description: As a Project Management Consultant you will help clients with better organizing and executing their projects.

Your activities:

- Setting up Communities of practice from the hard (governance and structure) and soft (learning mindset, coaching) perspective across industries at diverse clients
- Sales activities (supported by our sales director) to serve Threon's growth in the Dutch market and make Threon top-of-mind
- Developing qualitative consulting materials on topics such as project management processes and maturity increase, leadership, coaching and learning culture
- Co-create a Benelux project management knowledge hub where we share innovations on project management, leading teams and setting up communities of practice with clients
- Give project management hard & soft skills training on-site (Benelux) and virtually (global)
